

Outcome Theme 3: What are the criteria for old growth forest?

Natura 2000 Biogeographical Process

Theme 1: Effective Forest restoration

Natura 2000 Biogeographical Process

- Process most important:
 - involve stakeholders from the start
 - Participatory process!
 - Neutral facilitator(s)
 - Transparency
- KEY: time/resources/facilitation
- Think at landscape scale
 - Not only N2000
 - Connectivity
 - Country specific, area specific
